

ACTE IS A PART OF A NEW AND EXCITING COOPERATION WITH BANEDANMARK

At ACTE RAIL, we are pleased to announce that we have won the tender on cable troughs made of plastic and fibreglass for Banedanmark. These are the plastic cable troughs, Green Trough®, and the fibreglass cable troughs, VARIO TOP. Both manufacturers are ISO 14001 approved. We are very much looking forward to the cooperation! In this newsletter, you can read more about the exciting cooperation. You can also read about our new showroom, where we are happy to invite customers and other interested parties for a cup of coffee as well as a demonstration of our products from our GREEN BLOXX® range. GREEN BLOXX® is our range of top-class cable protection products, which is further described in this newsletter.

ACTE RAIL WINS THE RECENT TENDER ON FIBREGLASS AND PLASTIC CABLE TROUGHS FOR BANEDANMARK

ACTE RAIL has won the tender on cable troughs made of plastic and fibreglass for Banedanmark. The cooperation means that Banedanmark will use cable troughs from ACTE RAIL for their future projects. These are the plastic cable troughs, Green Trough®, and the fibreglass cable troughs, VARIO TOP.

The manufacturers of both the plastic cable trough, Green Trough®, and the fibreglass cable trough, VARIO TOP, are ISO 14001 approved. The products are also part of ACTE RAIL's GREEN BLOXX® range. GREEN BLOXX® is the result of many years of experience and sparring within the industry. The range consists of innovative and quality-assured cable protection.

Claus Bøgelund, Project Manager at Banedanmark, and Bao Trong Tran, Technical Manager, state: “We are pleased with the agreement with ACTE RAIL on cable troughs, which complies with Banedanmark's need for quality and at the same time supports our sustainability-strategy. We are very much looking forward to the cooperation”.

Lars Dich, Sales Director at ACTE RAIL, states: “We are very proud that we have been able to give Banedanmark the best price-quality ratio assessed in relation to the tender criteria for both plastic and fibreglass troughs, and we are certainly looking forward to the cooperation”.

Green Trough® cable troughs are produced from 100% recycled household plastic and are 100% recyclable after use, once they need to be replaced after more than 50 years of use. Green Trough® is the most environmentally friendly cable trough system on the market. It is furthermore both halogen-free and fire-retardant.

VARIO TOP is a multifunctional cable protection system in high quality fibreglass. The raised cable trough is both light and solid. It is easy to install and provides protection for sensitive cables and wires against any external influences - even in topographically difficult terrain.

ACTE RAIL is very much looking forward to the cooperation with Banedanmark. You are very welcome to contact us at +45 46 900 400 and hear more.

ACTE RAIL INVITES TO OUR NEW SHOWROOM

ACTE RAIL is pleased to invite customers and other interested parties for a cup of coffee in our new showroom at Vallensbækvej 41, 2605 Brøndby. We are open by appointment with the department. In our new showroom you can experience the products from our GREEN BLOXX® range. We are of the opinion that it often takes more than just a picture to get the full experience of a product. Thus, it is now an opportunity to experience our products physically, which will also emphasise the good quality of the products.

In the showroom you can see, among other things, our popular and environmentally friendly cable troughs, Green Trough®, which are produced from 100% recycled household plastic and are 100% recyclable after use, once they need to be replaced

after more than 50 years of use. You can also get acquainted with our raised fibreglass cable trough, VARIO TOP, which is a high-quality multifunctional cable protection system. Both Green Trough® and VARIO TOP are part of our new cooperation with Banedanmark. In addition, you can see our innovative and unique cable protection system from EFLEX and much more.

We look forward to meeting you in our new showroom. We strive to always have a small stock of our products.

ACTE PRESENTS WIDE FAMILY OF QUALITY PRODUCTS

At ACTE, we are pleased to present our family of top-class cable protection products, where quality and total cost have been the underlying basis. The range is called GREEN BLOXX® and is the result of many years of experience and sparring within the industry. The GREEN BLOXX range is available in different classes, qualities and materials. Thus, we introduce you to the next generation of innovative cable protection that creates added value in terms of cost efficiency, such as short installation time, long service life and a very comprehensive range of accessories. In GREEN BLOXX® you will find, among other things, our popular cable trough, Green Trough®, which is produced from 100% recycled household plastic. With these sustainable products, our intention is to leave a valuable and green footprint within the industry. With GREEN BLOXX®, we want to create value-optimising and future-proof technology solutions for our customers.

Our competent specialists are ready to advise your company on how the products can be integrated into your project and create value. All our products are approved according to Danish standards.
