

FACTS ABOUT ACTE

PROFILE

ACTE is a well-established consultancy and sales company with specialist knowledge in the fields of INDUSTRY, RAIL, IOT, ENERGY and MARITIME. We offer consultancy services, sale of quality products and project management to our customers in Denmark and abroad.

We spot customers' often untapped potential and create strategic business development. We give advice and sell new, customised value-adding and future-proof technological solutions.

We have more than 30 years of specialist experience and know-how of the market and technological solutions. With everything placed under the same roof, we are the customers' one-stop consultant when it comes to creating flexible and cost-effective solutions. We take care of the entire process, from consultancy, innovation, project support over logistics to final delivery – whether it is a product or a major project.

We have the best range of quality products. From our partners, who are all leading suppliers worldwide, we carefully select first-class products. Our customers get not only the best quality solutions but also our expertise and knowledge of optimal product integration and value creation.

PART OF LAGERCRANTZ GROUP

MISSION

At ACTE, we create new, value-optimising and future-proof technological solutions for our customers through our consultancy services and sale of products within our field of expertise.

VISION

We want to be a market leader in our field of expertise and to be the preferred choice for customers, suppliers and employees.

VALUES: Insight, expertise and reliability.
